

Switch on the power of teamwork.

The modern workplace presents many challenges for teamwork. Remote workers. Off-site meetings. Flexible schedules. Rapid iteration. Multiple communication channels. A dozen ways to share files and information.

Microsoft Teams brings it all together in one place with tools that make it easy to switch on the power of teamwork.

A hub for teamwork in Office 365.

Give your team access to the information they need, right in Microsoft Teams. Manage all your conversations, files, and tools all in one team workspace. Enjoy instant access to SharePoint, OneNote, PowerBI, and Planner. Microsoft Teams brings chat, content, people, and tools together, all in one hub, wherever you are.

Chat, calls, and meetings for today's teams.

Keep everyone in the know. Stay connected with chat, calls, and meetings within your team and in private or small group conversations. Schedule and join online Skype meetings with HD video, VoIP, and dial-in audio conferencing options. Share your files, apps, or desktop in online meetings and review the important moments later with transcriptions of recorded content.

Make Technology Your Business Advantage

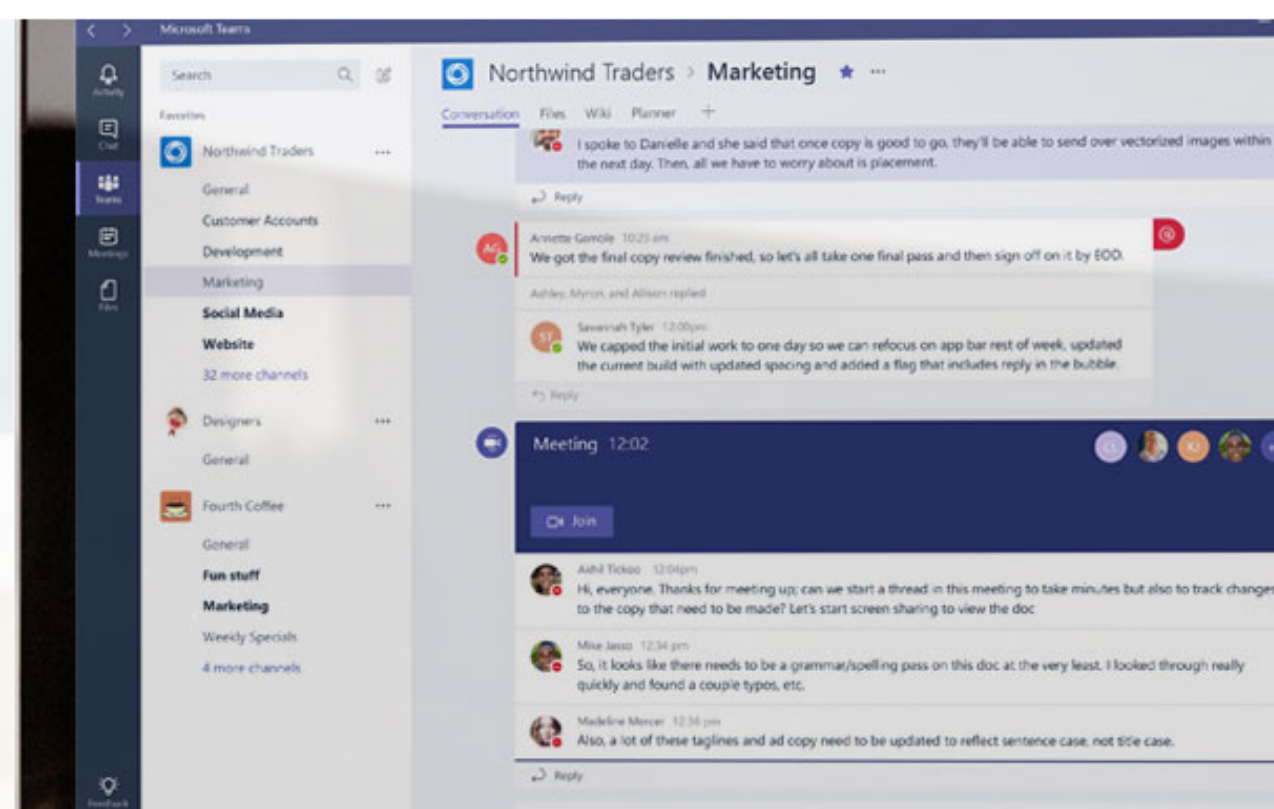

Customizable and extensible.

Tailor your Teams workspace to include key cloud services, explore data, and get updates from the apps your teams use every day. Create custom channels based on work streams or topics. Pin commonly used files and websites for easy reference. Add bots that work on your team's behalf. Build custom integrations to your existing business processes with the Teams developer platform.

Enterprise security, compliance, and manageability.

Microsoft Teams provides the enterprise-level security, compliance, and management features you expect from Office 365, including broad support for compliance standards, and eDiscovery and legal hold for channels, chats, and files. Microsoft Teams encrypts data at all times, at-rest and in-transit, and includes multi-factor authentication to enhance identity protection.
